PROFESSIONAL SUMMARY

Hello. I am a 3-year bachelor's student at the "Business and Technology" University. They teach a lot of subjects at the university, and I chose Python and SQL because they are interesting and I try to learn as much as possible to make it a part of my life. I have experience in Mac Python with a little Web Flask and also data sets with SQL.

Currently, I am working on monitoring the server in the City Security Service of Tbilisi City Hall, and I also ensure the working system so that my compatriots do not get into trouble.

EDUCATION

bachelor's student

BTU

📅 2021-2025   📍 Tbilisi

- I'm not a bachelor yet, but I think that by the time I graduate, I'll have the experience to find my way in life.
